MAINSTREET ADVISORS

# MAINSTREET ADVISORS' BUSINESS CONTINUITY PLANNING NOTICE

MainStreet Advisors is committed to providing reliable, trustworthy service that represents the best interests of our clients. The firm has developed a business continuity plan to protect our clients and employees in the event of an emergency or significant business disruption. The plan is designed to help prepare for securing employees' safety and firm property, making financial and operational assessments, promptly recovering and resuming operations and protecting the firm's books and records.

The business continuity plan considers various scenarios that range in severity from a firm or building only disruption to an emergency situation on a local or regional level. For example, in the event our office is inaccessible, an alternative location will be used to facilitate business operations. The firm believes that it can usually be able to resume business within 48 hours of detecting the disruption. Our goal in all situations is to return to normal business conditions as soon as possible, with minimal impact on our clients and employees.

MainStreet Advisors' business continuity plan is subject to change at any time without notice. However, notwithstanding the above, we do not guarantee that for every disaster or business disruption, such plans will be successfully implemented or that such plans will be sufficient and appropriate to avoid, deter or mitigate the disaster or business disruption.

If you have any questions, please contact us at compliance@mainstreetadv.com.
